# gatria

**GATRIA is a luxury, custom built light fixture with laminate or wood finish, decor is selected by a customer.**

Design of the fixture usually matches the furniture in a room so everything makes a compact unit, that is unobtrusive by foreign elements. This light belongs into our building kit fixture system so shapes or a straight line can be created from the fixtures. Pleasant, soft light can be achieved by using matte diffuser. Fixture can be mounted to the ceilings by a cables, but it can be also surface mounted directly to the ceiling.

## Variants and parameters of the light fixture Gatria

## Benefits of the light fixture Gatria

- Low consumption of DT LED LIGHTS guarantees:
  - better energy savings, up to 8-10x against light-bulbs and 1.5-2x against fluorescent lights
  - fast return of investment in case of whole light replacement
- Long life thanks to correct cooling. LEDs lasts at least 50,000 hours thanks to original Czech cooling design of LEDs which means non-stop lights for almost six years!
- Fidelity in color reproduction
  - neutral white, Ra > 85,
  - warm white, Ra > 80,
  - cold white, Ra > 80,
  - cold and warm white combination, Ra > 80.
- Flicker free - doesn't cause eyestrain like some fluorescent lights
- Immediate start - DT LED LIGHTS will achieve full brightness in one second. They are very suitable to spaces, where lights are often turn on and off. Due to their properties, there is no reduction of lifespan in these conditions.
- Low temperature resistant - lights can be used in very low temperature conditions, up to -20 °C (-4 °F).
